

April 10, 2007

Dear Colleague:

On behalf of the Trinity University Intelligence Community Center of Academic Excellence (IC CAE), I am pleased to invite you, and others you may know who have an interest in the field of intelligence, to an academic colloquium entitled "Public Policy and National Intelligence in a Changing Landscape." The event will be held on Trinity's campus on Friday, April 20 from 8:00 a.m. to 4:30 p.m. Lunch will be provided.

The colloquium will examine the influence public policy and the political environment have on the intelligence field as the balance of power among the political parties has changed hands in Congress, and as public opposition to the War in Iraq has mounted. Speakers will include practitioners from the intelligence community, and will also include recruiters from various U.S. government agencies with information regarding careers in intelligence. Congressman Alcee Hastings (D-Florida), Vice Chairman of the House Permanent Select Committee on Intelligence, will serve as the keynote speaker. Please see the enclosed flier for a complete agenda.

Funded through an Intelligence Community grant, the colloquium is a central activity of Trinity's Intelligence Community Center of Academic Excellence (IC CAE). The colloquium brings together students and faculty from universities in the Washington Consortium of Universities, as well as professionals from the Intelligence Community, public policymakers and scholars who focus on Intel issues.

Trinity's Intelligence Community Center of Academic Excellence, established as the result of a grant from the United States intelligence community, aims to increase the pool of eligible applicants for positions in the intelligence community with an emphasis on women, persons with disabilities, and minorities of diverse racial and ethnic origin.

Please join us on Friday, April 20, 2007, for what promises to be an insightful and stimulating event. To register and for contact information, please visit the colloquium website at [www.trinitydc.edu/academics/intel\\_center](http://www.trinitydc.edu/academics/intel_center)

Thank you for your interest, and I look forward to welcoming you to Trinity on April 20th.

Sincerely,

Patricia McGuire  
President
